MEMORANDUM FOR: Committee on Imagery Requirements and Exploitation

SUBJECT: Interim COMIREX EEI Groupings for Installations

1. In developing the COMIREX Initial NTP Operations Program EXSUBCOM and DBWG consider that the attached eight EEI groupings for installations should be adopted at least on an interim basis. This office feels that whereas it may not be possible to complete all of the information except at the point that third-phase basic exploitation is undertaken, it does not seem that this should preclude efforts to provide partial information in the first and second phases.

2. It is requested that you study various aspects of the attached recommendation with your subcommittee and working group members and be prepared to discuss it at the COMIREX meeting on 13 December. If you anticipate that there may be serious barriers to reaching approval of the groupings, please identify problems to this office.
